A Message from Commodore, Paul Ramey

I hope everyone had a great holiday season.

You may have noticed the format of the newsletter has changed. This was done to avoid redundancy of the information supplied by the Commodore and the various committee chairs. Each edition will feature information from one of the committee chairs.

I am sure if you have been out to the club or driven along the lake or river, you have noticed the water levels are extremely high for this time of year. It appears that the water levels in 2020 will be higher than last year, and that is going to create some challenges for the club. The executive is in discussion about possibilities in the event of catastrophic events. We welcome input from all members as to what could be done.

From Catherine, Cruising Chair

Let's hope the water levels allow us to do some cruising this summer! We will have a cruise night in March, so watch for a date. That's all for now, folks.

New Member Welcome

Allan Falkingham was accepted as a Full family member in December. He will be sailing his O'Day 27 from St. Clair Marine to our harbor late spring. Allan has enjoyed crewing and cruising on and off over the summer the past few years. He is an analyst with Buckland Windsor, and a member of Amherstburg Target Sport.

By-Law Meeting Notes

The committee has been meeting in January every other week. Presently, the by-laws are being reviewed to ensure the AGM content meets the requirements of ONCA.

From Erin

The property committee is repainting the main room and hall in the month of March. If you are interested in helping we are looking for painters, prep and clean-up teams. Schedules can be accommodated at this time. Contact bateserin@aol.com
