

## *A few Highlights of 2019*

*This season we can make more  
when the time is right !*

In light of the circumstances over the past few months, there was a suggestion we remember our 2019 season, and look forward to more memories this year. There may not be as many 'group' activities, but the Lake is waiting for us ! If you are out at the club working on your boat, please remember 'social distancing' is still in effect at this time. We hope u enjoy the photos, captions, and memories of last year.
